At VIT-AP, each semester includes three main exams apart from the class quizzes and assignments:

- Continuous Assessment Test 1 (CAT 1) – 50 Marks
- Continuous Assessment Test 2 (CAT 2) – 50 Marks
- Final Assessment Test (FAT) – 100 Marks

The screenshot above shows how to access the Exam Schedule. This section gives you complete information regarding your upcoming exams – including the subject-wise exam dates, day, timing, venue, and seat number.

Just below that, you'll find other useful options under the Examination menu:

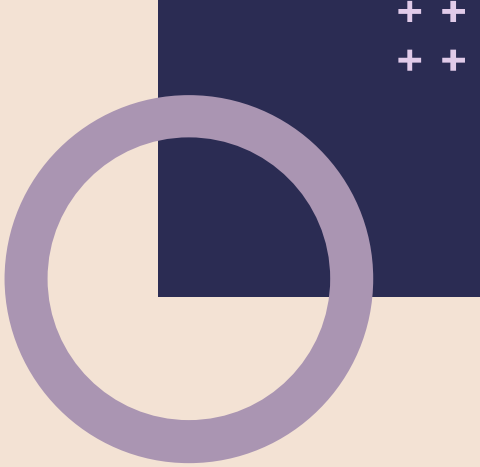

Marks : View your scores for CATs, FAT, and class quizzes and assignments.

Grades: Check your final subject grades once FAT results are released.

Grade History: View your overall CGPA semester-wise.

This is your go-to section for all important exam-related updates, so be sure to keep checking it during exam time!

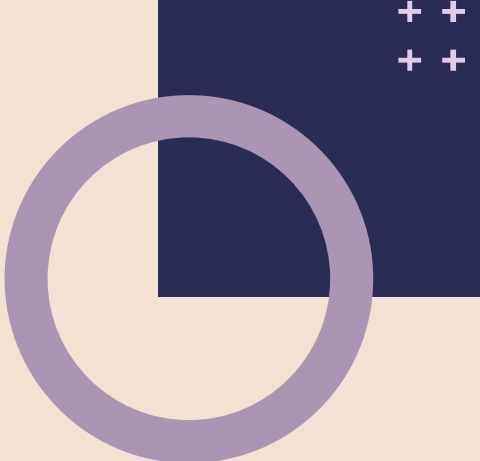

Exam Weightage:

It's important to know how your marks are split up so you can plan your studies better. For theory subjects, CAT 1 counts for 15%, CAT 2 for another 15%, internal marks like assignments and class quizzes for 30%, and the FAT makes up the remaining 40%. In labs, internal work such as record books and assignments account for 60%, while the lab FAT is 40%. It's important to know how your marks are split up so you can plan your studies better.

FAT Paper Seeing and Re-evaluation:

After FAT exams, students can apply on VTOP to view question-wise marks using the paper seeing option. The fee is ₹100 per course, and evaluated answer scripts are available on CodeTantra.

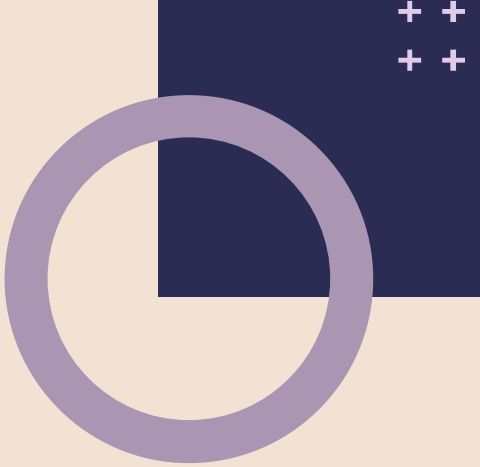

If you think any answers were not fairly evaluated, you can apply for re-evaluation by paying ₹300 per course on VTOP.

Re-evaluation requires detailed, question-wise feedback on CodeTantra for each answer you want reviewed.

Avoid vague comments or emotional requests like 'please increase my marks' – these can lead to rejection.

Even if re-evaluation finds lower marks, your original score remains unchanged – only increases are updated.

Re-Examinations:

Who can apply?

You could apply for a re-exam if you missed your test because of:

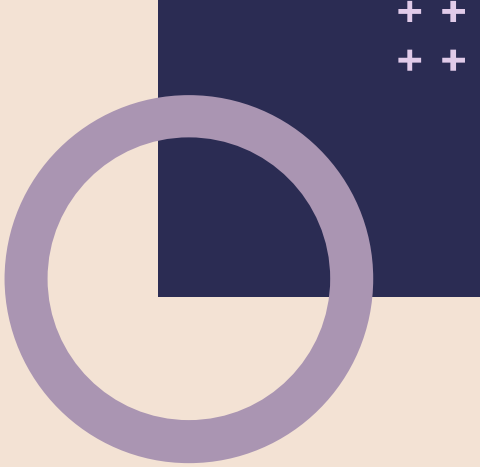

Death of a parent or sibling (you'll need to submit the death certificate)

Being hospitalized for a serious health issue (need medical certificate, admission and discharge summary, investigation reports and bills)

Your own or your sibling's marriage (submit the wedding invitation card)

If you've already taken prior approval from the college for other reasons, you can also apply under "Others" by uploading the approval letter along with any supporting documents.

How to apply?

**Fill out the re-exam form on VTOP under Examinations →
Re-Exam Application before the last date.**

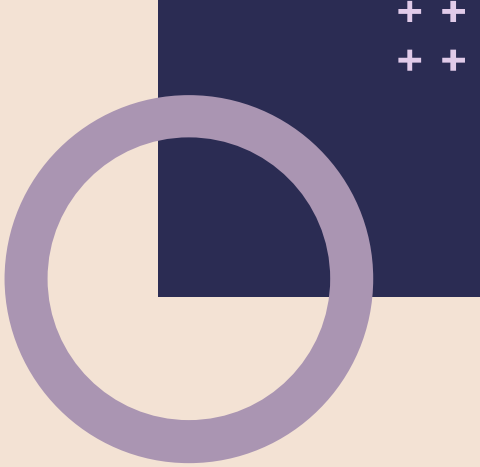

**Pick the courses you want to apply for, select the reason,
add a short remark, and upload valid documents.**

**Just prescriptions or test reports alone are not enough for
medical cases.**

**This time you don't need a mentor recommendation since
it's the summer break.**

**Remember, submitting fake or incomplete documents can
get you into serious trouble.**

What happens next?

Keep checking VTOP for updates on your application.

If approved by the Dean and Controller, you'll get a circular on VTOP with your new exam schedule.

If you miss this re-exam, it'll be marked absent and there won't be another chance.

If your application is rejected, the grade will stay as it is. Also note, you can't send re-exam requests by email or in person to the Controller's office — only through VTOP. So make sure to submit everything properly and before the deadline. No extensions will be given.

Hostel Selection Guide

Executive Summary

This section provides a comprehensive overview of the hostel facilities available at VIT-AP University, designed to assist prospective students in making informed decisions regarding their accommodation. VIT-AP offers a secure and comfortable living environment with a range of room types and amenities, catering to diverse student needs. NOTE:-

Student Mentoring Program

Mission:

To guide and support students in making informed decisions about academics, to aid their holistic development, and to instill a sense of accountability and responsibility.

Student Mentoring Program At VIT-AP :

- Every undergraduate student is assigned a faculty mentor at the beginning of their program of study.
- The student will be associated with the same mentor for the entire duration of the program of study. (May change in certain cases)

Who is a mentor?

- An experienced faculty allotted for the entire duration of the program to guide a student through their academic life on campus.
 - A caring and humane facilitator who provides access to people, places, experiences, and resources outside the mentee's routine environment.
 - A trusted ally, or advocate, who works with (not for) the mentee and on behalf of the mentee's best interests and goals
- 

Mentors—Roles and Responsibilities:

- **Availability**—Be present and responsive to the mentees.
- **Provide general academic guidance.**
- **Keep track of the mentee(s)'s performance**—The mentor shall keep track of attendance, academic performance, and behavioral aspects of the mentee through regular interactions.
- **Initiate Communication**—Meet students regularly, maintain contact with them, and monitor their overall well-being.
- **Address any concerns regarding the academic or campus life**
- **Maintain contact with parents to inform them of the progress of their ward whenever required.**
- **Confidentiality**—A bond of trust should be formed when a student comes to share something with you
- **Give constructive feedback.**
- **Participate in training workshops to improve skills.**
- **Maintain a record of the meetings (V-TOP, Photos, Reports)**

Allocation of faculty mentors:

- Faculty Mentor will be assigned by the Mentoring committee
- The mentor is assigned for the entire duration of the program. Any request for a change of mentor will not be entertained without valid reasons.

Leave Application:

- The mentees can apply for general leaves through VTOP.
- The mentor needs to approve the leave in VTOP after getting confirmation (over the phone or email) from parents before approving the leave.
- The mentor should check the attendance of the mentee before approving leave requests. The mentor has the discretion of rejecting the mentee's leave request in case of valid reasons.
- A student should inform (through email/phone) about all types of leaves they avail.

Things to keep in mind:

- In case of emergency, students can go to the Block Wardens for direct approval.
 - Students are required to submit leave requests through VTOP at least 48 hours in advance of their date of departure from the hostel.
 - Simultaneously, it is essential to inform their mentor via email or phone.
 - Please note that last-minute requests, emails, or calls will not be accommodated.
- 

Submission of attendance relaxation request forms.

- In case the student fails to maintain the minimum 80% requirement due to hospitalization of a student, demise of a family member, or marriage of a sibling, then the student can request for attendance relaxation up to 10% by submitting the attendance relaxation form along with the supporting documents, duly verified and signed by the respective mentor, one week before the start of examinations to the concerned school office of the student.
- The mentors should verify the medical certificate submitted by the student before signing the attendance relaxation form.
- Mentors should not request any faculty to give attendance to their mentees for their absence in the class.

Mentor Feedback:

Feedback is taken from students regarding the mentor and mentoring process through VTOP at the end of each semester.

Outings:

General Outing :

In this outing, the permission of the **mentor** is required along with the **block warden**. You can apply for a general outing through VTOP, where you have to enter your leaving and **arriving date and time** along with your **purpose of visit**.

Note: General outings can only be applied 24 hours before the outing. For emergencies you can directly contact your respective block warden.

Also, for **semester and long breaks**, you have to apply for **General Outing** only through VTOP, and for this case, it won't be accepted last minute through offline procedure via block warden.

Weekend Outing:

In this outing , only the permission of the **block warden** is required. You can apply for a weekend outing through VTOP, where you have to enter your leaving and **arriving date and time** along with your **purpose of visit**.

Note: Weekend outings are the outings only for Sundays and Mondays. Also, weekend outings are only for a **single day**, so you have to ensure your return on the same day. For emergencies you can directly contact your respective block warden.

Also, the **freshers won't be allowed** to apply for weekend outings for the **first 3 months**. So in order to avail the outings, they need to **apply for General Outing only**.

Life at VIT-AP

At VIT-AP, it's believed that sound mental and good physical health are crucial for holistic development. With a strong emphasis on the recreation of students, VIT-AP students, faculty, and staff are provided facilities that keep them active, spirited, involved, and healthy. Several intramural sports events are organized where students compete in cricket, badminton, volleyball, chess, etc. Apart from intramural sports, different colleges and universities also participate in our in-house sports and cultural fest, VITopia.
